Sensors display the felt data.
Tectonic plates shift the flesh,
and the celestial body liquefies
space like
honey.

Seasons as Choreographers

Where Over the World Is Astronaut Scott Kelly? (2015)

Performing Arts Research Centre, Helsinki (Fin)

SEP 215 @seasonsorchoreographers @whereovertheworldisaustronautkelly 3rd of July
The organic mass clasps me in its arms, narrow grey path in the middle of the green
ocean. The weight moves. Soft flesh gives up, making space for me.

SEP 215 @seasonsorchoreographers @whereovertheworldisaustronautkelly
The heat pulsates at my body. I am vaporizing. Drowning. Approaching cultures. 310 days
you say Scott. It is beautiful. @seasonsorchoreographers
